

To whom it may concern:

I am writing in reference to MB Docket No. 04-233. I am concerned for this issue because of the possibility of K-Love being forced off the air. I listen to K-Love pretty much 98% of the time, other than talk-radio of my own CDs.

K-Love is the only station that meets my needs as a radio listener. I do not like 99% of anything else on the radio because it is all very negative. It plays the music I like and talks about issues that are important to me. Here in San Antonio, even though it's a national radio station, it lets us know what's going on locally with an events calendar. The message is positive and is safe for ALL ages. I have listened to so many stories of people who have tuned in to K-Love and had their lives change for the better. It actually makes me a more aware and calm driver. This station is vital to the community of San Antonio. It offers an amazing alternative to all the other raunchy, crude, and negative music that most of the other stations play. It is definitely a station that can, and does, lift up this community, as opposed to the other stations that mainly play songs about drinking, drugs, sex, and violence. K-Love also services the community with resources for homeless shelters, marriage and family counseling, parenting advice, marriage advice, encouragement to the listeners to love and serve the people around them, and many other positive resources. The programming is family-friendly and supports wholesome values. These are things that are important to me.

Thank you for your time.
